- CANSAT
- Future Assets (Business Competition)

PROFILE

I am a determined, hardworking person who is very creative and loves to learn. I am currently attending school full-time, so I would be able to work flexibly at weekends and holidays, and evenings. I am an optimistic, friendly, and conscientious person, and am able to talk to anyone. I am very creative and have an eye for design. Remaining calm under pressure is one of my key skills, which I believe will help greatly when dealing with many customers at once.

WORK EXPERIENCE

Web Development

Self-Employed

- Designed and programmed a BMI Calculator used frequently by NHS Doctors.
- Skill in designing and programming full-stack websites (see above and website under contact).
- This job required me to communicate effectively with my clients, therefore would be an extremely useful skill for talking to customers.

Babysitting

Self-Employed

- Taken responsibility and dutiful care with other's children.
- To look after them effectively I had to be friendly and approachable.
- Allowed me to learn how to manage my finances.
- Improved my timekeeping as there is a requirement to be exactly on time.

INTERESTS

- Outside of school and work, I like to create using a wide range of mediums. I have skill in creative writing, graphic design, fashion, and programming.
- Informed about current trends.
- Technically proficient, can use computers & Microsoft office suite with great skill and ease.
- I like to go climbing, bouldering, skiing, and walking with my friends and family.
- Passionate about nature: Awarded the John Muir Award for creating wild spaces at Edinburgh Zoo.
- Reading books (I have read over 100 in 2022, across a variety of fiction and non-fiction genres) and watching movies.
